

## Vacancy

### Senior Consultant Data Engineering

You are the expert when it comes to data integration (ETL) and data warehouse projects. You help translate the customer's information needs into concrete data integration and data quality solutions, develop these and implement them. You are the discussion partner of the customer.

In your daily work, you make use of data integration platforms and databases and you unlock the customer's data by developing APIs. In this role, you will have every opportunity to develop yourself further and work with highly experienced colleagues on a variety of projects within the field of data management. Besides analyzing and implementing, we find knowledge building and knowledge transfer very important. We do this for our clients and for our colleagues.

Our clients are organizations with complex and extensive IT environments, data sources and information needs. Independently or with your team, you get to work and take the initiative to achieve success. One moment you are working for an e-commerce company, the next you are working for a financial service provider for a couple of months: our portfolio of customers is very diverse, so we offer you a lot of variety.

#### Who are you?

- » A minimum of Bachelor work and thinking level
- » A driven team player who always puts the customer, the team and the organisation first
- » Minimum 7 years hands-on experience with an ETL tool such as Talend, Informatica, MS SSIS or similar
- » Experience with database management systems, such as Snowflake, PostgreSQL, Oracle, MS SQL server
- » In-depth knowledge of and experience with SQL
- » You are fluent in the Dutch and English language

#### Wat we je bieden

- » Monday to Thursday you work for/at your client(s) in an environment where you really matter
- » On Fridays, you have plenty of room for your own development and to work on internal projects. Together, we look at your needs for training and education.
- » A network of 220 experienced colleague consultants in the Netherlands and Germany. You will work intensively together with experts in your field and continuously look at the latest developments. We have regular competence group sessions where knowledge is shared.
- » Pension scheme, 30 days of holiday, travel allowance/mobility allowance or a lease car, laptop and mobile phone - we make sure that you can be on the job everywhere.
- » Work hard, play hard: Fun outings with the team such as ski trips, summer events and Friday afternoon drinks. In short, a close-knit club of colleagues.

If you recognize yourself in the above description, then we would like to meet you! Send your CV and cover letter to [info@cimt.nl](mailto:info@cimt.nl) or apply via [www.cimt.nl](http://www.cimt.nl). If you have any questions, you can reach us by phone at 073 - 3030 458.
